“ John saved my life he was there when I had no one he gave me a chance to prove I was not like everyone else often he told me he never met anyone who is as strong as I am after going thru as much as I have in life. His words of wisdom often made the wheels turn in my head he saw my potential and in turn between us amazing advice love and life experiences was able to break thru to me that I am worth it and showed me there was a way out of the darkness and back into the light. He never gave up on me and helped me thru one of the hardest times in my life. He was never the guy who took the easy way out and always said it like it is. The moment I met him I said he is my guardian angel I know he came into my life for a reason and he definitely changed me in such a profound way. I'm so sad all our plans will never happen now but I still believe he's my guardian angel and I will hold him close to me in a special place in my heart always. John got me to finally see I do deserve love and that once I was able to love myself then I would be able to truly start living I will continue to live one day at a time and even tho he's not here with us physically I will continue on the journey he was able to help me start on and show him that he was right and show him the person he believed I could be is exactly who I am I would not be who I am today without him. He is dearly missed life's not the same without my buddy I don't know how to do this without ur guidance

“ When my son Matthew died , John always showed his support. Although I moved to Florida, I never forgot my friends from school and John was one of them. May God grant John’s family peace, strength and healing.
