“ Started working with you in 1983 at Storage Tech., many 12 hour days on lots of weekends. We worked together on 2nd and 3rd shift and had many breakfast " meeting " at Triple A Diner and Denny's. You left for another networking company but we worked together again when Storage Tech bought that company. After I was laid off we still stayed friends, reloading your computers late into the night. When I didn't remember stories, you remembered them all, you would say "Dude" you don't remember. I'll think of you every time I mow our pasture on your old mower. I know I'll see you again, say Dude so I knows its you.

“ Sensei Don you were a teacher and friend for many years. You provided lessons in life as well as in Martial arts. Your teaching was part of what molded me into who I am and how I've approached life in general. We lost touch in the last few years but you are in my decisions almost daily. Taken from those that love you to soon, you will be missed my friend.

*Beautifully said dad. I'm so glad now that I'm older that you, Don & Lenny pushed me to come out of my shell and learn from the 3 of you. Don you were a big part of my life growing up and even though you could be very serious and strick, it helped me become a stronger person. You were an amazing father to your children, you loved them with all you had and it was easy to see. You were a great cook...sometimes a little to spicy for my taste buds BUT you always made sure if it was gonna be extremely spicy to make something else as well. I'm sad that over the past few years kind of lost touch, my daughters would have LOVED to have met you. I know your in the heavens watching over your boys ❤️ Please rest easy knowing that you raised some amazing young men!! ❤️ Love you.*

*“ Tried to write it too many times. Don was like a mama grizzly, fun to be with, protective when needed. Loved his classes, loved his friendship. Yes, you will be missed, but not forgotten.*

“ There are so very many moments I could share about Don. Many took place in his studio in Greenfield, pizza after a karate test, birthday parties when the boys were little. Game and card night. The list goes on and on. Don was a great friend during my divorce offering a lot of love and support. What I regret is not staying in touch over the last few years. Don thank you for the laughs and the tears. I will see you again. Love to my friend.

“ When I had my 50th birthday, Don offered to host a game day at his house because I didn't have the room. He loved it - to have that many more people over to play board games all day. I have so many memories of the Saturdays where our families got together to be social and competitive at the same time. "I can use this card now, right?" "No, Don, not until next time you get it." "OK. Next week." That became the catch phrase for anything that you couldn't use right away. "Next week."

My friend, So many memories. When you roared in the door in Greenfield I thought oh boy! here we go. I was so wrong we could not have ask for a better teacher, friend. You taught real life. I have so much to thank you for you took me along side you and showed me your style of teaching, fighting, I will always be thankful for allowing me to tag along with you to Natick. all our late night nights training, making videos and taking out the frustrations of the day out on each other. What battles they were. the blindfolded battles. I will never forget my 1st BB test when I was picked by FV to be a punching bag for twenty minutes by a 100lb girl and I looked over at you and you had this big smile on you face enjoying every shot that girl gave me. Then on the ride home you told me you told him to pick me. Love every minute of it. I am sorry I didn't stay in touch more. I could go on forever, so many story's I wish we could relive. RIP SENSEI / Brother, lenny,,
