“*Julie was a very kind, thoughtful, and prayerful person. I met her many years ago through my father as they both went to a weekly Rosary Cenacle at a mutual friend's home. I would join them on occasion. At that time we were raising our young family of eight children. Our children were enrolled at St Joan of Arc School. On numerous years, we had 3, 4, or 5 children at a time enrolled there. I was a stay-at-home Mom, so meeting the financial obligation of the tuitions on one income was challenging. One year, Julie helped with a financial donation toward our bill. We were extremely grateful! Julie was also always there with an offer of prayers during difficult times. She was one in a million. Lifting her and all of her loved ones up in prayer. We will be making a donation to St Joan of Arc School, Financial Aid, in her memory.*

“*Julie and I both taught classes in the biological sciences at HCC for many years. Because her office was near mine, we shared many wonderful conversations on topics both professional and personal. I will remember her always as both a valued colleague and a very upbeat supportive friend. Ed Brown*

*I met Julie @ the Marine Science Consortium near Wallops Island in the "74-"75 timeframe. I will always cherish our friendship & her attendance @ my OCS graduation @ Yorktown, VA where I had the chance to meet her father. Although our careers took us down separate paths she will always remain a special person in my life-one I sincerely thank God for allowing our paths to cross when they did. She has a special place in heaven for all the great work she did on this earth-Julie, may u finally rest in a true peace knowing God is still watching over you and your family for a wonderful life so fully lived for others while here on this earth. Sent In God's love for our all-too-brief times together, Dan Williamson*
